Project Title: The Zodiac Killer

I want to build a multiple page site, navigated through a navbar at the top, that explores the case of the Zodiac Killer, who has recently fallen into public conversation.

1. Home Page/Introduction:

- a. This page would be dedicated to who the Zodiac Killer is and general background about the case

2. The Murders:

- a. This page would be dedicated to the confirmed murders by the Zodiac Killer
- b. There would be an aside about the murders claimed by the Zodiac Killer/assumed to be the Zodiac Killer that we have no proof of

3. Speculation

- a. This page would be dedicated to the various suspects

4. Ciphers

- a. This page would explore the ciphers (deciphered and undeciphered) of the Zodiac Killer

5. Sources

- a. As of now, I'm only planning on using https://en.wikipedia.org/wiki/Zodiac_Killer
